 - Evaluation results from IDS CC
 - Feedbacks from the ACs on the corrected files
 - Solar panels attitudes
- **12h30 - Lunch**
- **14h00 - Phase law (1/2)**
 - Results from IDS CC
 - What about ITRF2013 ?
- **15h30 – Coffee break**
- **15h45 - Phase law (2/2)**

Wednesday October 16th

- **9h30 - Cryosat-2 modelization**
- **10h00 - ITRF2013 internal delivery schedule**
 - Remark/questions: if at least one AC could not provide time period 1993-2012 until late December, do we ask IERS to postpone the delivery of our combined solution ? For ACs that could not be in time, do we recommend to start the processing in 1993 or do we prefer it to process from present to past ?
 - I would also recommend to already plan a telecom just before or after AGU
- **11h30 - Presentation of the ongoing development of the multi-techniques version of plottool**
