

CNES/CLS Analysis Center (LCA) Plan

L. Soudarin¹, H. Capdeville¹, J.-M. Lemoine², P. Schaeffer¹

¹ CLS, Collecte Localisation Satellites, Ramonville, France

² CNES, Toulouse, France

Plan

Models are defined

Phase law is implemented

Spot-2, Spot-3, Spot-4, Topex, Jason-2 OK; need a last control

Envisat: open issue = Along-track opr bias

Spot-5: open issue = Along-track opr seasonal after solar array orientation change

Jason-1: change SRP value

Cryosat-2: 7-plate macromodel to apply

Hy-2a: further investigations are needed

Saral: first runs are OK

Start with 1993-2001 in November ; estimated time: 1 month

Besides, see Envisat, Spot-5, Jason-1, Cryosat-2 (+HY-2a, Saral?)

Then 2002-2012 in December; estimated time: 1 month

And 2013 in January
