IDS Nominating Committee

Dear IDS Nominating Committee and Governing Board,

I am writing to express my strong interest in contributing to the International DORIS Service (IDS) as the Data Center Representative. With a career dedicated to geospatial data, I am enthusiastic about the prospect of leveraging my skills and experience to support the IDS mission.

Throughout my 31-year career, I have demonstrated leadership and a deep understanding of geospatial operations, having led initiatives and projects that have enhanced computing requirements for systems integration, streamlined operations for client projects, and delivered notable success in deploying stable, high-performance, cost-effective systems on time.

I am confident that my background in Earth science, telecommunications, cadastral mapping, and commercial software development will align well with the IDS objectives and contribute to its continued success.

Please consider this my official request for consideration for the upcoming election at the IDS Governing Board (GB) Meeting.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ross Bagwell', with a large, stylized initial 'R'.

Ross Bagwell

Deputy Manager, Crustal Dynamics Data Information System (CDDIS)
