

Report on DORIS Special Issue  
*Advances in Space Research*

Pascal Willis

# Current status

- 26 manuscripts submitted in total  
(between April and September 2009)  
(to be compared to 18 in 2006 for J. Geodesy)

Only 3 rejected so far

- 1st Special Issue published in Advances in Space Research = first 10 available articles  
= [volume 45\(12\), June 15, 2010](#)  
(see recent DORISMail for table of content)

# Plans for the future

- 2nd issue  $\leq$  13 articles  
(publication expected in November 2010, or early 2011)

Currently:

8 accepted (already available online) at

<http://www.sciencedirect.com/science/journal/02731177>

2 in good shape (to be accepted  $<$  1 month)

3 to be confirmed (depending mostly on the good will of the authors for their revision, already several cycles of major revision)

NB: CNES and IGN have paid for 300 copies of both volumes to be distributed freely to authors, IDS, IAG, other services,...
